v. Letter of Transmittal

The Director
SGITS
23 Park Road
Indore

Date: 28th January 2022

Ref. No. : SGITS/03/18/160

Respected Sir,

Subject: Letter of Transmittal

This report is written with reference to your letter no. SLSITR/03/18/160 in which you have asked us to "Analyze New Education Policy". We would like to present our findings and recommendations concerning the same.

We hope that this report will give you complete analysis of New Education Policy.

Yours faithfully.

vi. Preface

This report aims to analyze the New Education Policy 2020. Providing universal access to quality education is the key to India's continued ascent, and leadership on the global stage in terms of economic growth, social justice and equality, scientific advancement, national integration, and cultural preservation. In this study, we have endeavored to highlight and overview the policy and identify the innovations and implications in it. We have incorporated several suggestions for further improvements for the effective implementation of NEP 2020 to realize its goal.

vii. Acknowledgement

We would like to express our thankfulness toward all those who helped us in the preparation of this report. Special thanks of Dr. Neha Motwani mam for guiding us through this report and answering our queries from time to time. We would like to take this opportunity to thank

our parents, whose constant support and guidance let us untiringly to consummation of this report.

x. Abstract/ Summary

After a gap of 34 years, on 29 July 2020, the Union Cabinet approved the National Education Policy 2020. The new policy aims to pave way for transformational reforms in school and higher education systems in the country. Additionally, the Cabinet has approved the renaming of the Ministry of Human Resource Development to the Ministry of Education. It is only a policy, not a law and as education is a concurrent subject, implementation of the proposals under the new NEP 2020 depends on further regulations by both states and the Centre.

2. Main Text:

xi. Introduction

India is a growing liberal country for educational reforms. The currently introduced National Education Policy 2020 envisions an India centered education system that contributes directly to transforming our nation sustainably into an equitable and vibrant knowledge society by providing high quality education to all. It was released on July 30, 2020. The Ministry of Human Resource Development (MHRD) had constituted a committee for drafting the National Education Policy (Chair: Dr. K. Kasturirangan) in June 2017. The committee submitted a draft NEP for public consultation in May 2019. The NEP will replace the National Policy on Education.

xii. Discussion

The National Education Policy 2020 envisions an India centered education system by considering its tradition, culture, values and ethos to contribute directly to transform the country into an equitable sustainable, and

relevant knowledge society. This policy aims for the major overhaul of the Indian education system. It is expected that the education system will be completely transformed by 2040.

School years are changed from 10+2 format to 5+3+3+4 format (Foundational (3 years of pre-school + grade 1-2) + Preparatory (grades 3-5) + Middle (grades 6-8) + high school (grades 9-12)).

For holistic development, children should be taught many things apart from education. NEP 2020 stresses on encouraging creativity and innovations in students. They will be given knowledge on necessary things such as new technologies, digital literacy, gender sensitisation, fundamental duties, social issues etc by weaving the curriculum. 'Right to education' (RTE) is extended from 14 to 18 years. To increase the Gross Enrolment Ratio and also to increase access to education, Online Distance Learning (ODL), MOOC (Massive open online courses) will be given adequate importance. This can reduce the number of dropouts too.

To reduce exam stress on students board exams can be taken on two occasions during any given school year - one main examination and one for improvement. Teacher-student relation is very important in the education system. But at present, teachers are transferred regularly, which places stress on students. So, this practice will be stopped. Colleges will become multidisciplinary institutions by providing a wide choice of subjects. It made degrees flexible by providing entry and exit options to degree courses.

xiii. Conclusion

1) The policy accords the highest priority to achieving Foundational Literacy and numeracy by all students by grade 3. The policy states, "The highest priority of the education system will be to achieve universal foundational literacy and numeracy in primary school by 2025."

2) The "10+2" structure will be replaced with "5+3+3+4" model

3) Instead of exams being held every academic year, school students will only attend three exams in classes 2, 5 and 8.

4) Coding will be introduced from class 6 and experiential learning will be adopted.

xiv. Recommendations

Key recommendations of the NEP include:

1) redesigning the structure of school curriculum to incorporate early childhood care and education.

2) curtailng loopholes for ensuring universal access to education

3) increasing gross enrolment in higher education to 50 percent by 2035.

4) improving research in higher education institutes by setting up a Research Foundation.

3. Back Matter:
