Dear Sir

I was very interested to see your advertisement for a Software Engineer in *The Hindu* (20 November 2010). I have been seeking just such an opportunity as this, and I think my background and your requirements may be a good match. I am very much interested in working as a Software Engineer in your esteemed organization. I enclose my résumé as a first step in exploring the possibilities of employment with Cisco Private Limited.

I have worked as a project trainee in Satyam Computer Services Limited for the past 6 months. I was involved in developing a graphical user interface for Metadata Management System. So I have hands-on experience in Java Swing, Java Security, JDBC, and Oracle.

As a Software Engineer in your organization, I assure you that I will work hard for the improvement of your company. Furthermore, I work well with others.

I would appreciate your keeping this enquiry confidential. Thank you for your consideration.

Yours faithfully

(Gopinath M.C.)

Objective

- To associate myself with an organization that provides a challenging job and an opportunity to prove innovative skills and diligent work
- To be involved in providing software solutions to enhance network security

Professional Experience

Project Trainee (July 2009–December 2009)

Satyam Computer Service Ltd, Hyderabad

Project: Metadata Management System

Description: Metadata Manager is a tool to create and maintain data marts. It creates a centralized metadata repository to store all the details about data marts. Databases, Technologies & Languages used: Oracle, Swing, JDBC, Java Security, XML, PL/SQL, Java.

Responsibilities

- Designed a database in Oracle to hold metadata.
- Designed an appropriate graphical user interface for the system.
- Led in the design and development of Security System for this application.

Project Details

Implementation of secure File Transfer System (January 2009–May 2009): It involves the design and implementation of Kerberos for File Transfer Protocol in C language.

Kerberos improves the security of FTP by preventing replay attacks and IP spoofing. It uses DES for encrypting the packet that reduces the processing time when compared with RSA.

So the performance of FTP is not degraded.

Learning Aids Development (January 2010–May 2010): It involves the design and development of applets for BITS Virtual University. It includes the analysis of security vulnerabilities of applets.

Courses Done

- Network Security
- Computer Networks
- Network Programming
- Telecommunication Switching Systems and Networks

Educational Background

Degree of Examination	Name of the Institution or School	Year	Division
*M.E., Software Systems (Final Year)	Birla Institute of Technology and Science, Pilani, Rajasthan	2009–present	
B.E. (Hons), Electronics and Instrumentation	Birla Institute of Technology and Science, Pilani, Rajasthan	2005-2009	First Division with 72%
Higher Secondary Examination	Bharathi Vidya Bhavan, Erode, Tamil Nadu	2003-2005	Distinction with 97%
