

SHRI G.S. INSTITUTE OF TECHNOLOGY AND SCIENCE

DEPARTMENT OF HUMANITIES AND SOCIAL SCIENCES

English Language Lab Manual

Name: Harsh Raj Sharma

Roll. No. AB-16030

English language lab Setup:

The language laboratory caters to the needs of students to learn, understand and improve language skills. The LL runs with 41 PCs and required software from reputed digital language lab software provided. The lab is occupied 100% of the time. On Saturdays and Holidays, it is available for other users.

Syllabus of the Subject:

DEPARTMENT OF HUMANITIES AND SOCIAL SCIENCES

I Year BE (4YDC)

HU 10651 TECHNICAL ENGLISH

HOURS PER WEEK			CREDITS		MAXIMUM MARKS					
L	T	P	Th	Pr	THEORY		PRACTICAL		TOTAL MARKS	
3	-	2	3	1	CW	END SEM	SW	END SEM	150	
					30	70	20	30		

PRE-REQUISITE:

The student must possess basic knowledge of English Grammar and basic ability to read, write and speak English language

COURSE OBJECTIVES:

1. To enable the students to recognize the relationship of effective communication skills to succeed in academic, work and social environments.
2. To develop both written and oral communication skills.
3. To produce clear, complete and accurate messages in business correspondence.
4. To improve English phonetics enabling the students to speak and write English correctly and with confidence.

COURSE OUTCOMES:

After successful completion of the course, *students will develop competency in the following areas:*

1. Communicate effectively with good interpersonal skills; speak in public, engage the audience, make a presentation using Power-Point and tackle group discussion.
2. Speak English with clarity using correct pronunciation and accent in all situations
3. Comprehend a particular piece of information, absorb what is read and hone the art of condensation and effective writing skills with correct syntax and grammar in all formal situations.
4. Collect, analyze, document, and report information clearly, concisely and logically. Also, apply technical information and knowledge in practical documents.
5. Produce clear, complete, concise, concrete and precise messages in day to day business transactions while drafting applications and E-Mails.

COURSE CONTENT:

UNIT 1: Communication Skills:

Meaning & process of communication skills and significance of effective communication, Presentation Strategies: Techniques of Oral Presentations, Defining the Purpose, Analyzing the Audience, Establishing the main idea, Selecting the Appropriate Channel and Medium. Power Point Presentation. Group Discussion.

UNIT 2: Application of Linguistic Ability

English IPA: Types of speech sounds; Monophthongs, Diphthongs, Consonants and Phonetic Transcription

UNIT 3: Advanced Writing Skills:

Composition : Meaning and Significance, Exercise on free essay writing on technical and current topics with particular emphasis on clear expressions, Precis writing: Reading and Comprehension, Basic rules and practice of writing précis.

UNIT 4: Technical Report Writing:

Introduction: Meaning and importance, Features, Principles, Structure and Format, Samples and Models for practice

UNIT 5: Business Correspondence

Introduction: Business & Official letters, Structure and Layout of Business letters, Types of Letters: Job Application, Letters of enquiry, Quotations, Orders and Complaints. E-Mail writing

PRACTICALS:

LIST OF ACTIVITIES AND SOFTWARE MODULES	
SESSION 1	1.INTRODUCTION TO THE LAB 2.SELF INTRODUCTION
SESSION 2	1.TENSE BUSTER ELEMENTARY. 2.PRACTICE OF GROUP DISCUSSION
SESSION 3.	1.TENSE BUSTER LOWER INTERMEDIATE 2.MAKING TECHNICAL REPORT (GROUP)
SESSION 4.	1.TENSE BUSTER INTERMEDIATE 2.TENSE BUSTER UPPER INTERMEDIATE

SESSION 5.	1.TENSE BUSTER ADVANCED 2. PRESENTATIONS OF TECHNICAL REPORT
SESSION 6.	1. BUSINESS WRITING 2. STUDY SKILLS SUCCESS
SESSION 7.	1. CLEAR PRONUNCIATION 1 2. CLEAR PRONUNCIATION 2
SESSION 8.	1. MOCK VIVA 2. ROLE PLAYS
SESSION 9.	SHOWING VIDEOS RELATED TO THEORY SYLLABUS
SESSION 10	1. QUIZ 2. DEBATE

ASSESSMENT: Through End-Sem. Theory Exam, Theory sessionals, Mid-Sem Tests, Assignments, End-Sem. Practical Exam, Practical sessionals, quizzes, and presentations.

BOOKS RECOMMENDED:

1. Sharma, R.C. and Krishna Mohan, *Business Correspondence and Report Writing*, New Delhi: Tata McGraw-Hill, 2009.
2. Raman, Meenakshi and Sangeeta Sharma, *Technical Communication*, New Delhi: Oxford Univ. Press, 2011.
3. Kapoor A.N., *Business Letters for Different Occasions*, New Delhi: S. Chand & Co. Pvt. Ltd., 2012.
4. Thomson, A.J. and A.V.Martinent, *A Practical English Grammar*, New Delhi: Oxford University Press, 1986.

REFERENCES RECOMMENDED:

1. Lesikar, Petlit, and Flatley, *Lesikar's Basic Business Communication*, New Delhi: Tata McGraw-Hill, 1999.
2. Bhatia, R.C., *Business Communication*, New Delhi: Ane Books Pvt. Ltd., 2012.
3. Magan, Sangeeta, *Business Communication*, New Delhi: Biztantra Publications, 2010.

METHODOLOGY:

1. Theory: The lectures are engaged in theory classes and all the topics in the syllabus are covered.
2. Practicals: The topics covered during theory classes are practiced with the help of examples and modules. Modules:-

Tense Buster 2001 Elementary

- Using Tense Buster
- Am, is, are
- Simple Present
- Negatives
- Questions
- I, me, my
- A, an, the
- Countable
- Some, any
- Have got

Tense Buster 2001 Intermediate

- Using Tense Buster
- Equality
- The Passive
- Relative Clauses
- Will and going to
- Conditionals
- Vocabulary
- How to learn faster

Tense Buster 2001 Advanced

- Using Tense Buster
- Past Perfect
- Articles
- Reported Speech

- Passives
- Phrasal Verbs
- Vocabulary
- How to learn faster

Business Writing

- Successful Writing
- Organizing Information
- Writing clearly and appropriately
- Linking ideas
- The business letter: Introduction
- Letters: A Case Study
- Successful Email
- Business Reports
- Proof Reading
- Reference

Study Skills Success

- Listening
- Speaking
- Reading
- Writing
- Grammar
- Vocabulary
- Research
- Visuals

Clear Pronunciation

- Consonants I
- Consonants II
- Monophthongs
- Diphthongs
- Ear Training

Globarena

- Communication Skills
- Conversation
- Listening Comprehension
- Reading
- Vocabulary

WORKSHEET ON PARTS OF A BUSINESS LETTER (Sessions 1 &2)

Fill in the blanks with appropriate parts of a business letter:

1. Signature is the place for the writer to handwrite their name.
2. The recipient's name, company name, and address are called the Inside address.
3. The purpose of the letter is included in the Body.
4. Yours truly, is an example of a Complimentary closing.
5. The last line in a business letter is the writer's typed name.
6. The date is when the letter is written.
7. The return address is the address of the letter writer.
8. Dear Mr. Johnson is a salutation.
9. Write your own formal business letter, using a separate piece of paper. Include all parts of a formal business letter and be sure it is in the correct format. There should not be any spelling or grammatical errors and it must be written in clear, concise language.

10-B, Nehru Colony, Thatipur
Gwalior (Madhya Pradesh)

Robert Publishing house,
New Delhi

Subject → Placing an order for books for my collection

Respected Sir,

I would like to place an order for the following books:-

"The girl in room number 105" → Chetan Bhagat 1 copy

"Rain in the mountains" → Ruskin Bond 1 copy

Kindly ensure that the books are in good condition. The books should be delivered by 3rd February 2021 & the bill for the same will be cleared at the time of delivery.

Yours Faithfully

Harsh Raj

EXERCISE ON PASSIVE VOICE (Sessions 2&3)

Complete the following sentences with the passive form of the verb in brackets.

Example : The bills (pay) every month. => The bills are paid every month.

- 1) English is spoken (speak) in this hotel.
- 2) Over 100 meals are served (serve) every day.
- 3) Each lesson is followed (follow) by an exercise.
- 4) Dictionaries can be borrowed (borrow) at the library.
- 5) Smoking is not allowed (not/allow) in this building.
- 6) Taxes are included (include) in the price.
- 7) A new version is published (publish) every year.
- 8) More and more mobile phones are stolen (steal) every day.
- 9) A lot of information can be found (find) on the Internet.
- 10) A confirmation email is sent (send) to every subscriber.

WORKSHEET ON REPORT WRITING (Sessions 4-6)

TOPIC: Alzheimer Disease & other Dementias

v. Letter of Transmittal

The Director,

SGSITS,

Indore (M.P.)

January 27 2022

Subject: letter of transmittal on 'Alzheimer disease & other dementias'

Dear Ma'am,

This letter is in reference to your letter no. SGSTIS/12/21/2022 in which you asked to us to make an analytical study on 'Alzheimer Disease'. I would like to present my findings and recommendations concerning the same. I hope that this report will give you an insight of the disease & its effect on people. Hop that this report grants enough information to you.

Yours faithfully

Harsh Raj Sharma

vi. Preface

In this report, I present reviews with the most crucial information on several critical aspects of Alzheimer's Disease, providing the reader with a broad picture of the underlying neuropathology, genetics, risk factors, novel biomarkers, and potential interventions. It discusses the underlying Alzheimer's Disease pathogenesis using genomic approaches, linking diverse pathways that can lead to complex metabolic dysfunction & reviews the potential role of trace metal in Alzheimer's Disease. It also reviews diverse facts of Alzheimer's Disease to get a comprehensive picture of the pathogenesis, associated risk factors, novel biomarkers & potential therapeutic targets. I believe that this report will encourage readers to dwell deeper into this field & take up the critical challenge of working towards effective treatments for Alzheimer's Disease & related dementias.

vii. Acknowledgement

I would like to express my thankfulness towards all those who have helped in the preparation of this report. I would like to thank our director, Prof. R.K. Shrivastava Sir for providing me this opportunity. Special thanks to Ms. Sarika Tawari Ma'am & all other teachers for guiding me through this report & answering all my queries from time to time. I would like to take this opportunity to thank my parents, whose constant support & guidance lead me into the production of this report.

x. Abstract/ Summary

Improvements in health care in the past century have contributed to people living longer & healthier lives. This has also resulted in an increase in the number of people with non-communicable disease, including dementia. Although, dementia mainly affects older people, it is not a normal part of ageing. Dementia is a syndrome caused by variety of brain illness. It affects memory, thinking, behaviour & ability to perform everyday activities. Dementia is overwhelming not only for the people who have it, but also for their families. Every year, there are 7.7 million new cases of dementia worldwide.

2. Main Text:

xi. Introduction

Dementia is a syndrome caused by disturbance of multiple brain functions, including memory, orientation, calculation, language & judgment. Improvements of cognitive functions are commonly accompanied & occasionally preceded by deterioration in emotional control, social behaviour or motivation.

Alzheimer's disease is the most common form of dementia & possibly contributes to 60-70% of cases. Other types of dementia include vascular dementia & a group of diseases that contribute to frontotemporal dementia.

xii. Discussion

Alzheimer's Disease (AD) is characterized by a progressive decline in cognitive functions. AD is sustainably increased among people aged 65 years or more; with a progressive decline in memory, thinking,

language & learning capacity, AD should be differentiated from normal age related decline in cognitive function, which is more gradual & related to disability.

The pathophysiology of AD is related to the injury & death of neuroinitiating in the hippocampus region of the brain. In Alzheimer's disease, abnormal aggregation of τ -protein, a microtubule-associated protein expressed in neurons is also observed. τ protein acts to stabilize microtubules in the cell cytoskeleton. Like most microtubule-associated proteins, τ is normally regulated by phosphorylation. Current evidence indicates changes in CSF levels of A- τ & P- τ which are not static over the course of the disease. The mechanism that drives the formation of senile plaques & neurofibrillary tangles is still unknown at present. These senile plaques & neurofibrillary are cause of disfunctioning of brain in Alzheimers. Abnormal release of neurotransmitters such as glutamate contributes to neuronal death & inflation. Neuroinflammation is also involved in the complex cascade leading to AD pathology & symptoms. Considerable pathological & clinical evidence documents immunological changes associated with AD, including increased pro-inflammatory cytokine concentrations in the blood & cerebrospiral fluid. It has been implicated in the pathogenesis & progression of AD.

xiii. Conclusion

In 2012, dementia was declared a public health priority by the World Health Organization (WHO). Due to the ageing of the world population, the number of patients of AD will rise significantly. If no treatment is available, this will be a major health issue with enormous financial burdens on the health care system. Thus, there is an urgent need for early body diagnosis with specific markers as well as effective therapies that could be taken at the different stages of the disease. Currently, only short-term symptomatic treatment is available. While, there is research & development already

in this area, much work is still required. This includes basic research in the pathology of the disease & risk factors.

- Non-invasive & clinically effective diagnostics tools
- Valid scale outcome efficacy measures for the disease function

xiv. Recommendations

An important research goal should be the development & evaluation of new instruments in relevant domains that are sensitive, reliable & valid, for detecting changes in normal ageing & early & before disease onset. Furthermore, it would be helpful if there can be self-administered and not require significant professional involvement. Now, uses of technology, such as computerized assessments & telephonic methods are some options & may be desirable in this field.

There is need to be more collaborative & a multi-disciplinary approach in the areas of research & development for AD. Grant review should be done by government & industry to facilitate.

New funding models should be explored which can support core research facilities & non-tenured staff in academic institutions, such as the creation of endowments for facilities & pharmaceutical & biotech consortia. Innovation is needed to encourage diversity of approaches to fight AD.

[Letter Head]

It is the place where organization's name & address is already written.

[Date] 31 01-2022, Here we write date of writing letter

[References] it contains letter number

[Inside Address]

This contains name and place where address of this letter is to be sent

[Attention Line] It is used for the title of job

[Salutation] Dear Sir / Madam or Name

[Subject]

gives the purpose of letter.

[Body] it basically consist of 3 parts where you

write the message you want to convey or send to the organization

[Complimentary Close] yours sincerely, for closing letter

[Signature and Designation]

Here, we write Sender's name & designation

WORKSHEET ON PHONETICS (Sessions 8 & 9)

A. Find out the consonant sounds in the following words:

S.No.	Words	Consonant Sounds
1.	Church	<u>ˈtʃɜːtʃ</u> consonant sounds - <u>tʃ, tʃ</u>
2.	Strength	<u>ˈstreŋθ</u> consonant sounds - <u>s, t, r, ŋ, θ</u>
3.	Busy	<u>ˈbiːzɪ</u> consonant sounds - <u>b, z</u>
4.	Zebra	<u>ˈziːbrə</u> consonant sounds - <u>z, b, r</u>
5.	Pleasure	<u>ˈpleɪzə</u> consonant sounds - <u>p, l, z</u>
6.	Match	<u>ˈmætʃ</u> consonant sounds - <u>m, tʃ</u>
7.	Although	<u>ɔːlðəʊ</u> consonant sounds - <u>l, ð</u>
8.	Shelter	<u>ˈʃeltə</u> consonant sounds - <u>ʃ, l, t</u>
9.	Women	<u>ˈwʊmən</u> consonant sounds - <u>w, m, n</u>
10.	Introduction	<u>ˌɪntrəˈdʌkʃən</u> consonant sounds - <u>n, t, r, d, k, ʃ, n</u>

B. Write down the Plosives found in RP English.

t, k, p, d, g and b

C. Write down the Affricates found in RP English.

ch sound, j sound 1tʃ/ & 1dʒ/

D. Write down the Fricatives found in RP English.

1v/, 1f/, 1ð/, 1θ/, 1z/, 1s/, 1ʒ/, 1ʃ/ and 1h/

E. Write down the Semi-vowels found in RP English.

1j/, 1w/

F. Write down the examples of five /ei/ found in RP English.

Race, weight, Base, Take and, Care

Questions to be asked during viva-voce:- (Mock-Viva Sessions 10-12)

1. Define communication skills?
2. How many skills are there in communication skills?
3. What are the differences between written and oral communication?
4. What do you mean by "YOU ATTITUDE"?
5. What is verbal communication?
6. What is nonverbal communication?
7. What is a precis?
8. What is an essay?
9. What is phonetics?
10. How many sounds are there in English language how many of them are vowels and how many consonants. Give some examples?
11. What are plosive sounds?
12. What are affricates?
13. Define linguistics?
14. What are the characteristics of technical writing?
15. Define the term report.
16. How many elements are there in technical report and what are their functions?
17. Difference between Summary and Abstract.
18. Difference between the Table of Contents and Index.
19. How many types of business letters are there? How many elements are there in business letter and what are their functions?
20. Differences between a business letter and an informal letter.
21. What is the difference between job application and other business letters?
22. How many elements are there in business letter give the function of each element?
23. What are the different types of complimentary closes while writing business letters explain the connotation of each type?
24. What is the pattern of writing date in a business letter?
25. What is post script? Where do we use it?
26. What are the optional elements of a business letter?
27. Introduce yourself.
